ELECTION DIFFICULTIES "

UNDER THE BEVISED STATUTES, The Aldermen of the city of Portland have tryrain that city: This is probably owing to the jain able to reader to the public, in that post. apperation of the revised Statutes which require that a return be made of the whole number of jests effecting sur-loreign relations, a confour Ballots cost for each person voted for. In some impact; and as there is nothing to disturb the cases of returns. Town Clerks, and Clerks harmony of our intercourse, I have not telt if of city-Warda have used the terms ballots and consistent with the duty which I owe to the votes as synonimous. A ballot is a ticket with country, to run the rick, by any sudden or abone or more names as thrown by one person in regard to subjects and questions how traine while-a vote is only one name. Let us illustrate distely pending and which intimately affect the If ten persons vote for a licital three Senators, preservation of the prace of the country. they cust ten bullote, but thirty votes. Now in the returns it is necessary to state the whole number of BALLOTS and to give the number of votes against the name of each person voted for.

By a strict observance of the revised statuteswithout reference to the constitution, for in the former ballots are spoken of and the latter rotes, it may seriously be boubted Whether any of the Senators are elected in the State upon either. side. The question is a new and a diffiguit one and we think the usual practice under the provisions of the Constitution, should be observed by the Governor and Council in counting the votes. The provisions of the Revised Statutes are correct enough with proper care in making the distinctions between ballots and rates which we have alluded to.

#### REDICULOUS RUMORS.

The Dally Mall says that a letter has been reneixed in Boston stating that Mrs. Webster had expressed his apprehensions that it would be impossible to maintain peace with England

We have other rumors pretending to give accounts of conversations and instructions of the colonial office-in-England. We are then to suppose that the diplomatic officers of England and the United States hold ag open hand, and newspaper writers can catch the first thoughts of these men and give them to the greedy public! This is certainly a new system by which the national ministers are the last to be informed of the intentions of their governments! On the whole these kind of rumors are very redienlous and only serve to feel a morbid desire (of the marvellous.

You will have learned that Mesars. Ewing, Bell, Bad and Crittenden, have resigned their respective offices. Probably Mr. Granger may feel bound to follow the example. This occurrence can hardly cause you the same degree of regret which it has occasioned to me; as they are not only friends, but persons with whom I have had, for sometime, a daily official intercourse. I could not partiate in this move-

It is supposed to be justified. I presume, by the differences which have arisen between the President and Congress, upon the means of establishing a proper fiscal agency, and restoring a sound state of the currency; and collateral matters, growing out of these differences.
